

# Water Safety

## **Authorized swimming areas**

Reference, USAREUR  
Regulation 385-2, USAREUR  
Recreational Water Safety  
Program

**Unauthorized Swimming Areas** - All open bodies of fresh water, to include lakes, rivers, streams, ponds, and quarries are off limits, unless specifically authorized as a swimming area by the USAG Bamberg Commander.

These areas have been placed off limits since there are usually no lifeguards on duty, plus many of them are contaminated with chemicals and/or organic waste.

**Authorized Swimming Areas** - Unless specifically placed off limits, the following areas are approved swimming areas:

- a. All ocean and sea beaches with a lifeguard on duty.
- b. All public and private swimming pools, to include hotel pools.

**The videotape or CD is available at the USAG Bamberg Safety Office, Bldg. 7089, room 316 (reservations recommended).**

**In addition, the enclosed list of authorized swimming areas should be posted on unit bulletin boards throughout the summer season to ensure accessibility to this information.**

# Authorized Swimming Areas in Bamberg and surroundings

# **Bamberg**
